UniVariate Analysis

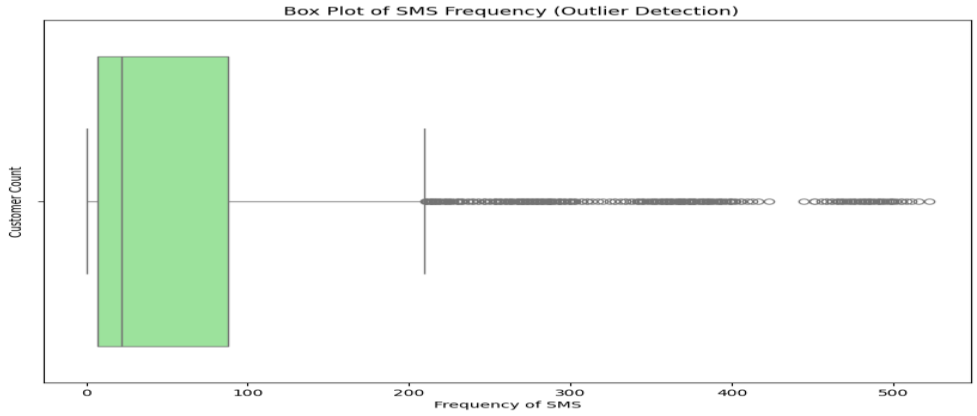

1.Target Variable Countplot

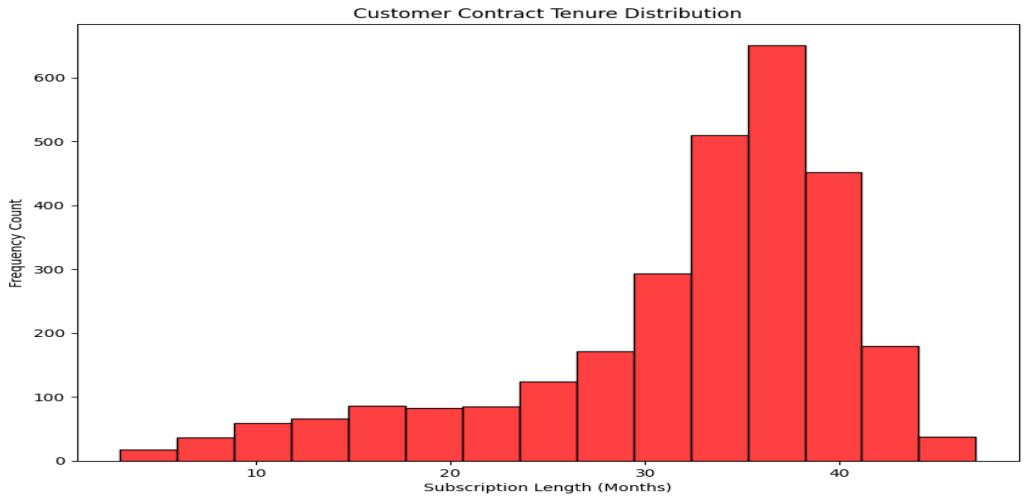

2.Second Use of Histogram

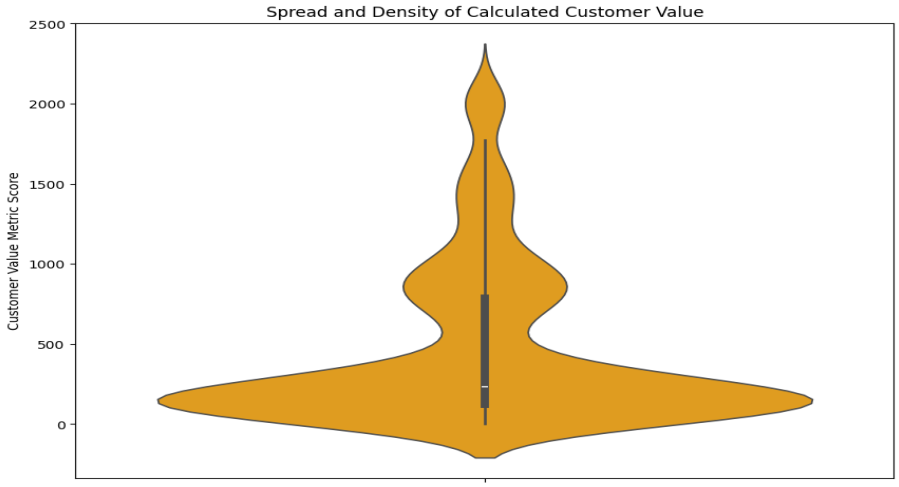

3.Frequency of Sms Boxplot

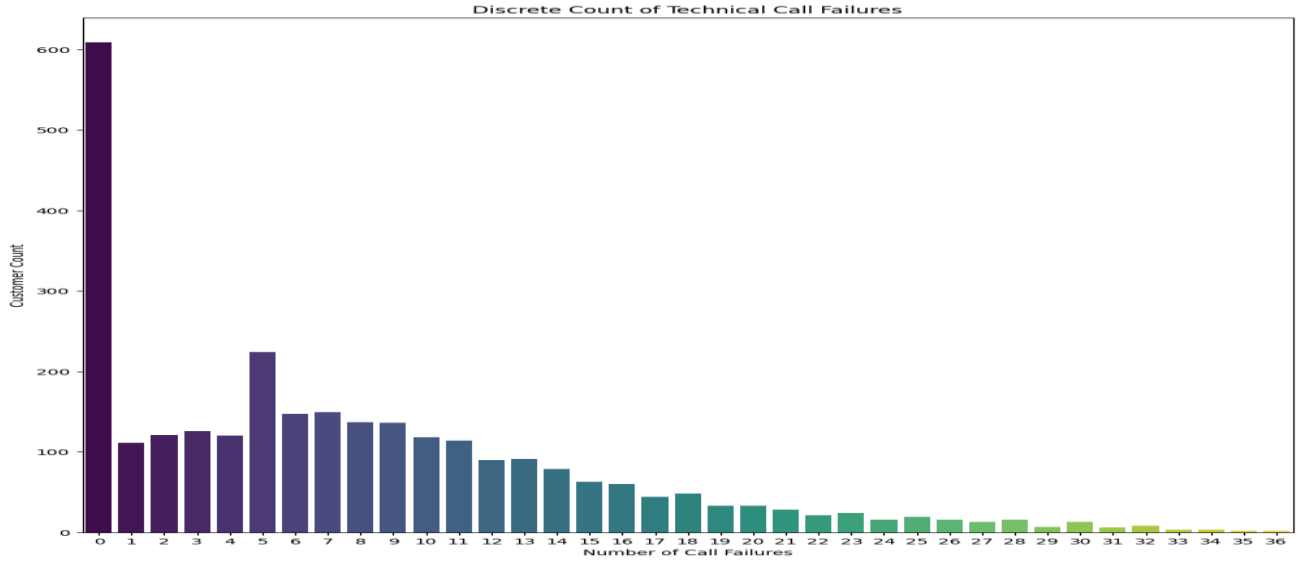

4.Subscription Length Tenure Distribution Histogram

5.Customer Value Violin plot

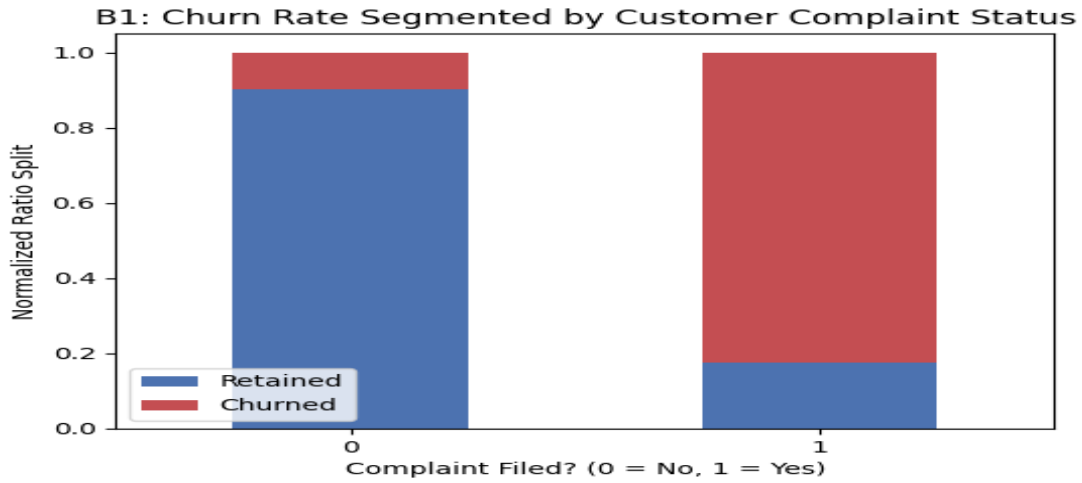

6.Call Failures Discrete Count Plot

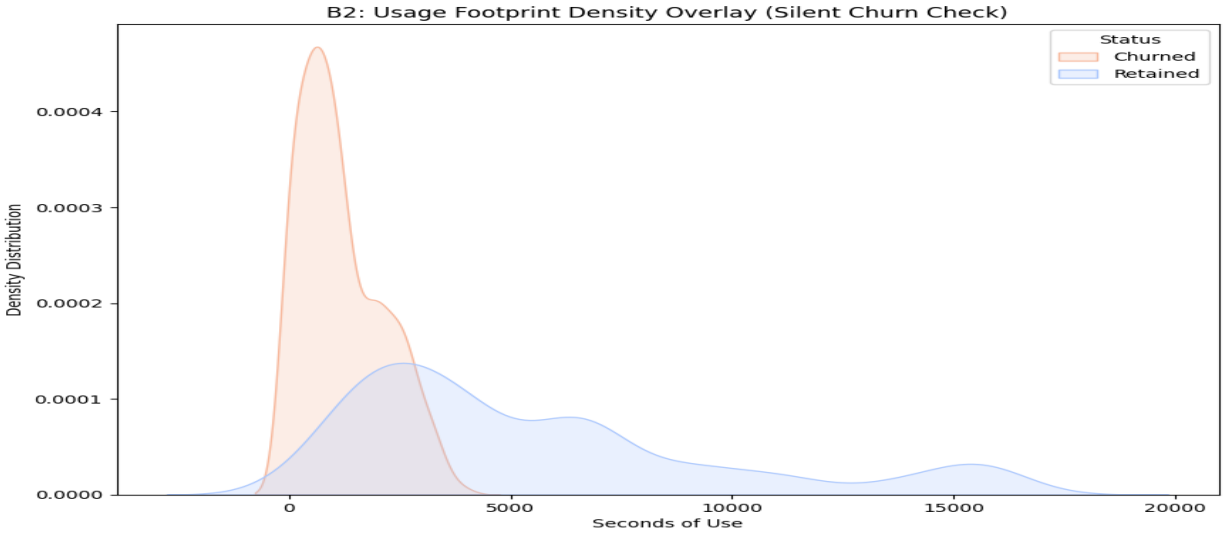

Bivariate Analysis

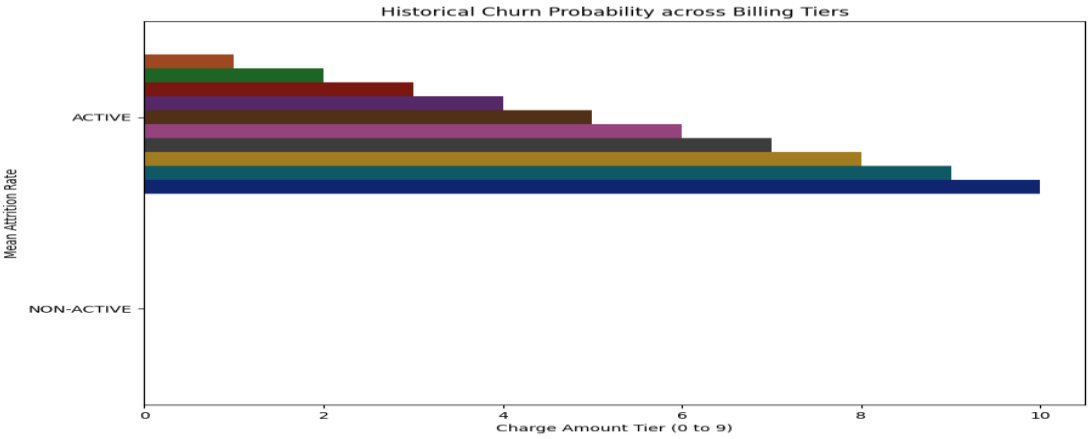

1.Complains Vs Churn Stack Percentages

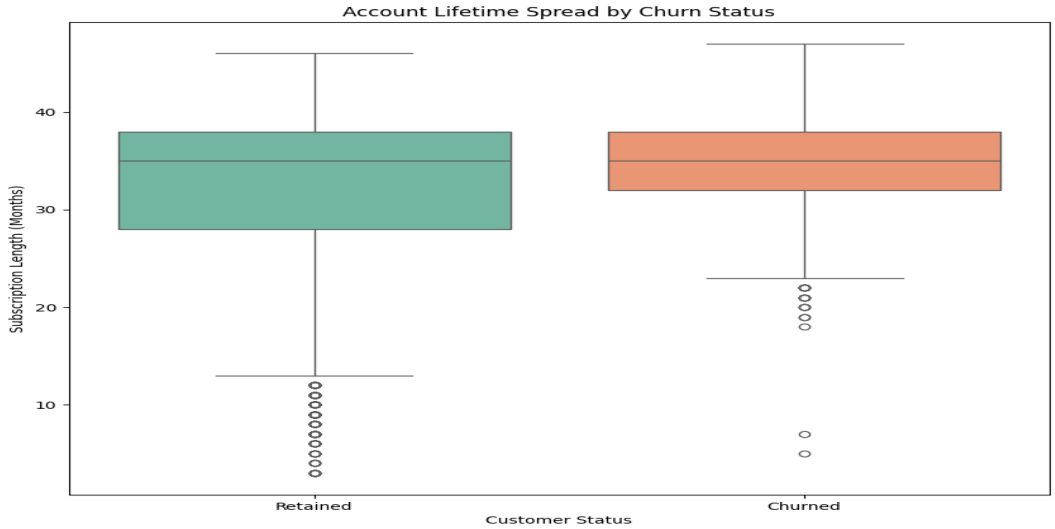

2.Seconds of Use Density split by Churn

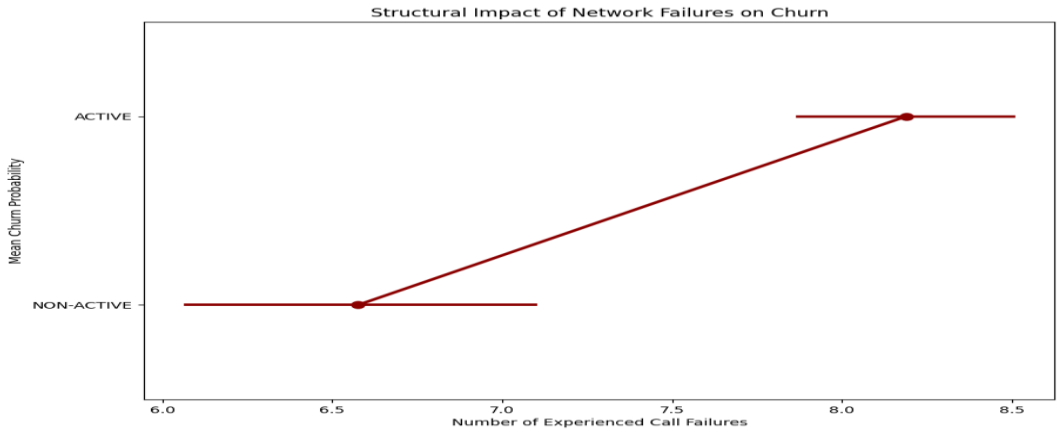

3.Churn Probability by Charge Tier

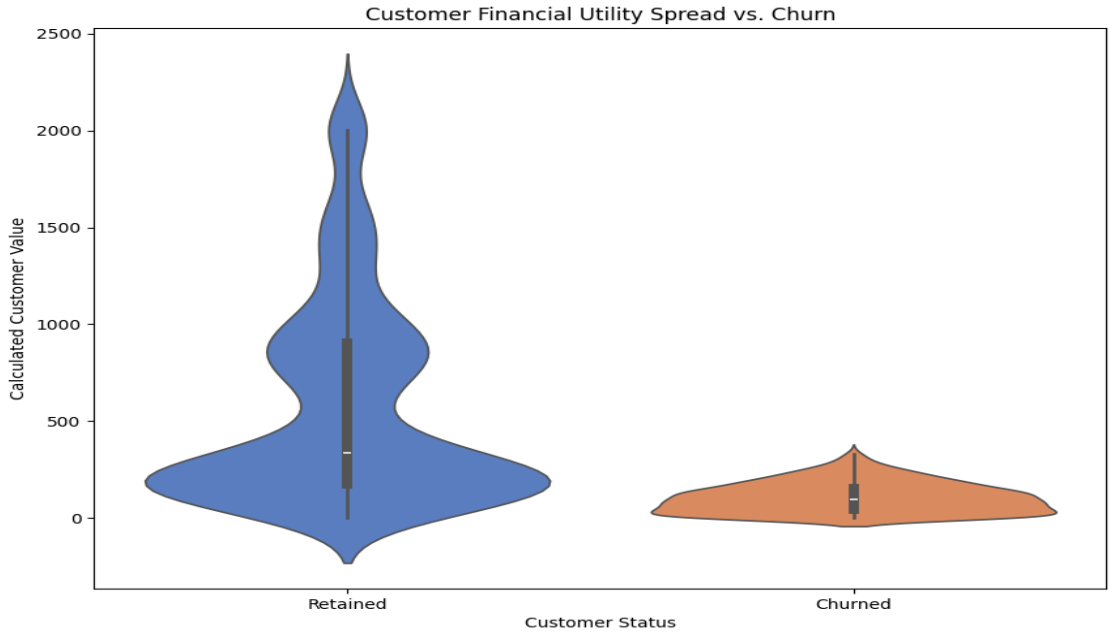

4.Subscription Length Boxplot split by Churn

5.Call Failures Impact Churn Rate point

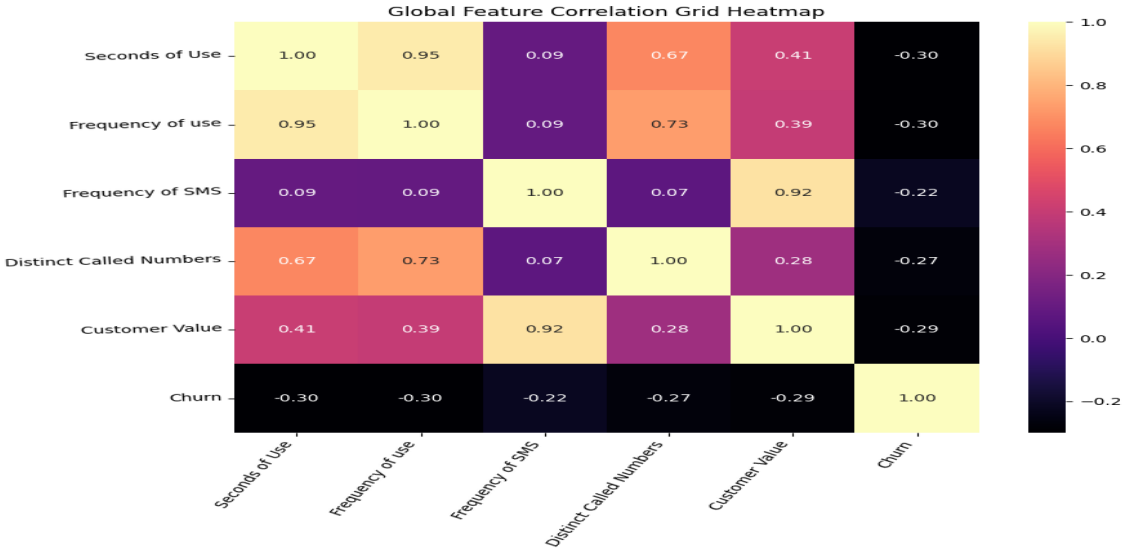

6.Customer Value Distribution Split by Churn

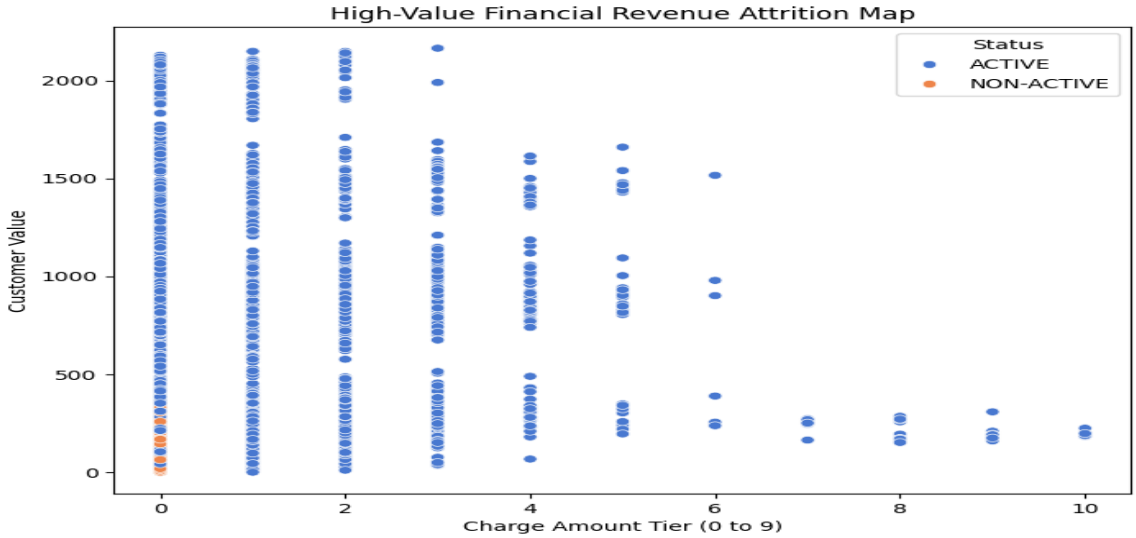

Multivariate Analysis

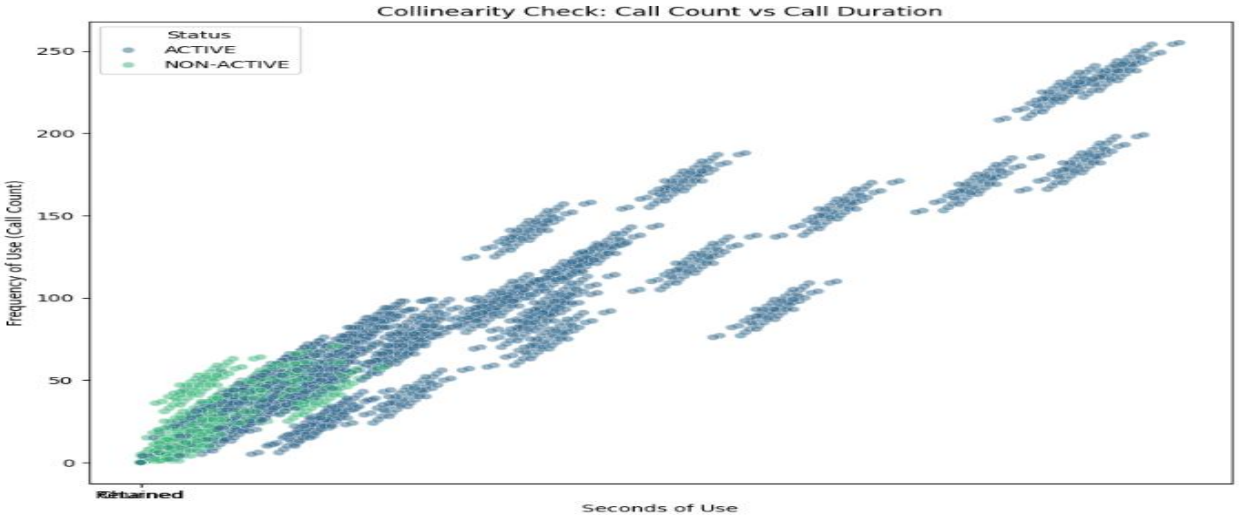

1.Correlation Heatmap

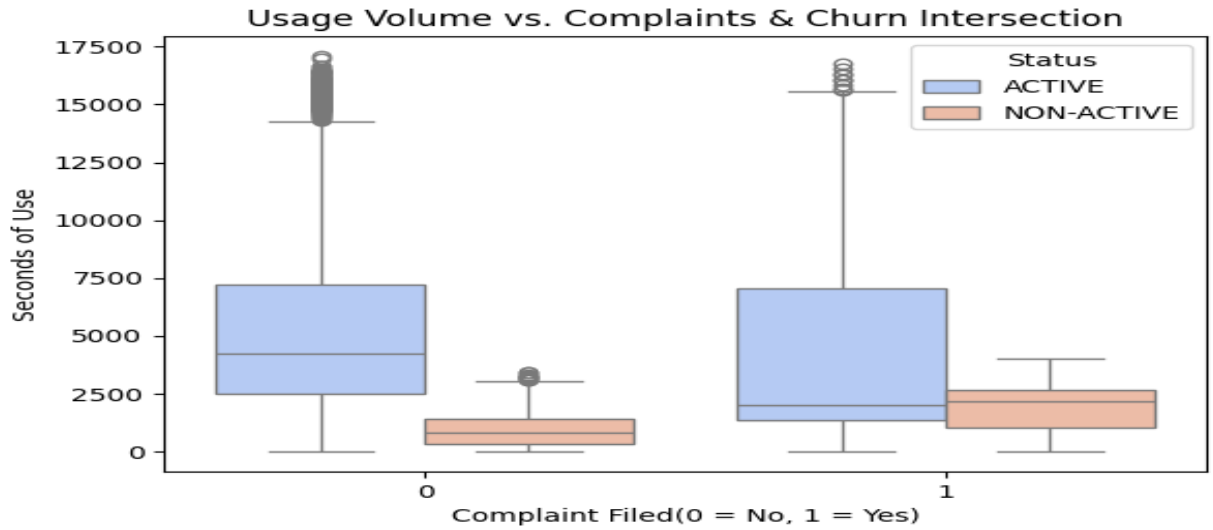

2.High-value Revenue Attrition

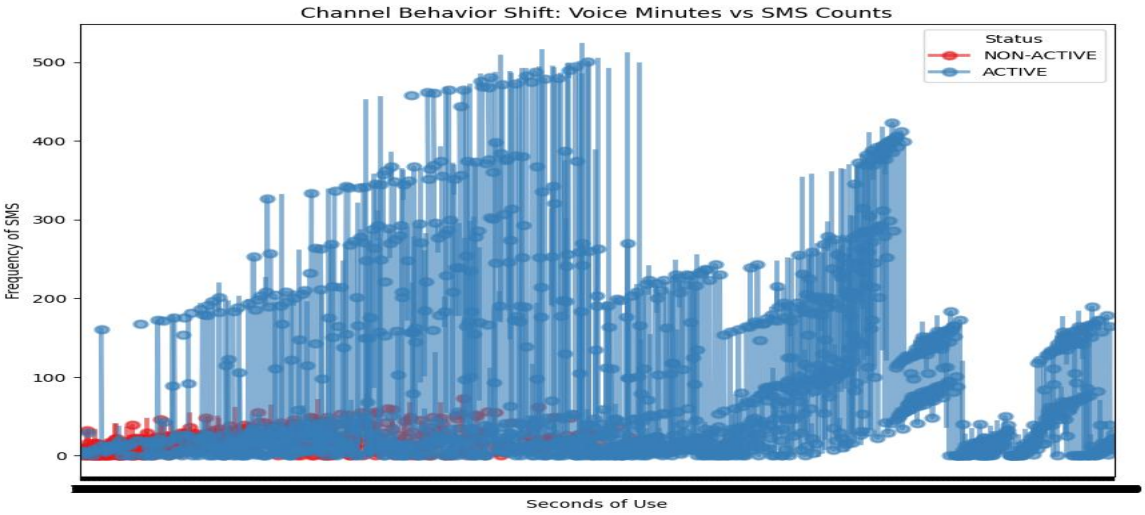

3.Usage Redundancy

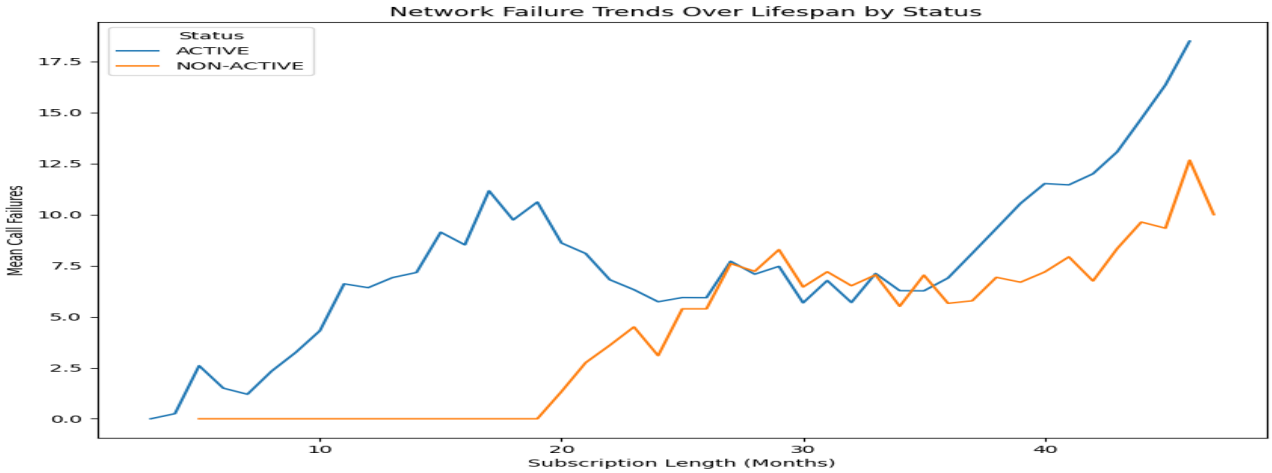

4.Complains X Second Of Use by Status

5. Channel Preferences (Voice Vs SMS)

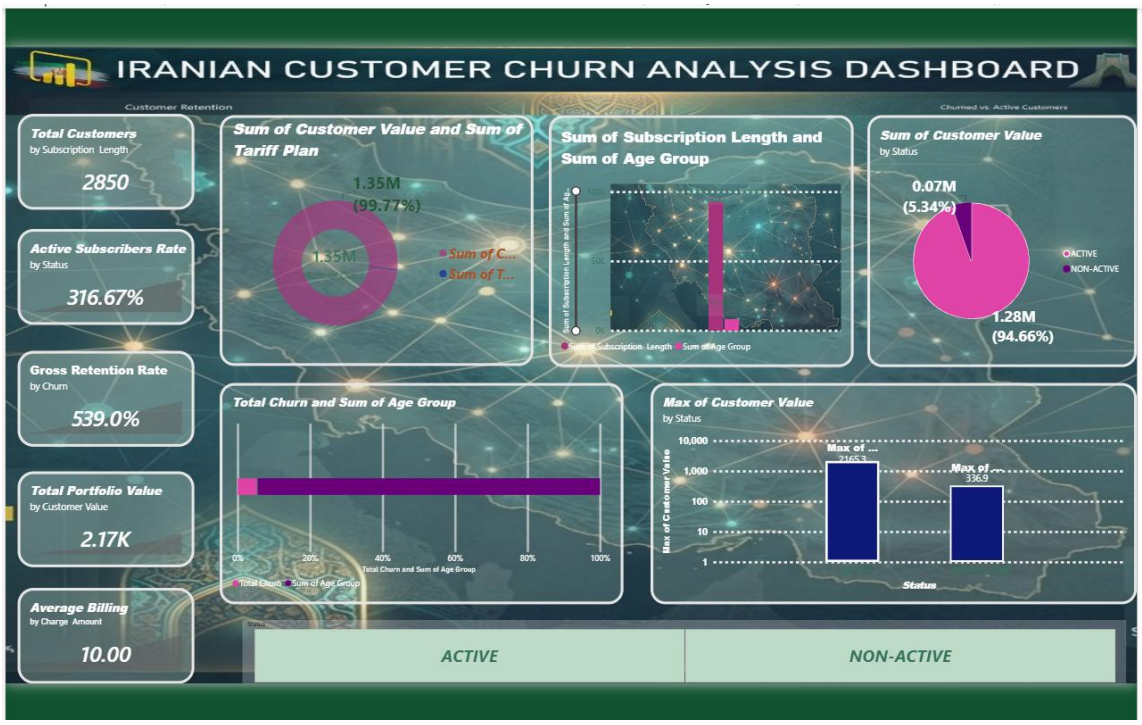

6.Service Failure Trend Line cross Account Lifetime

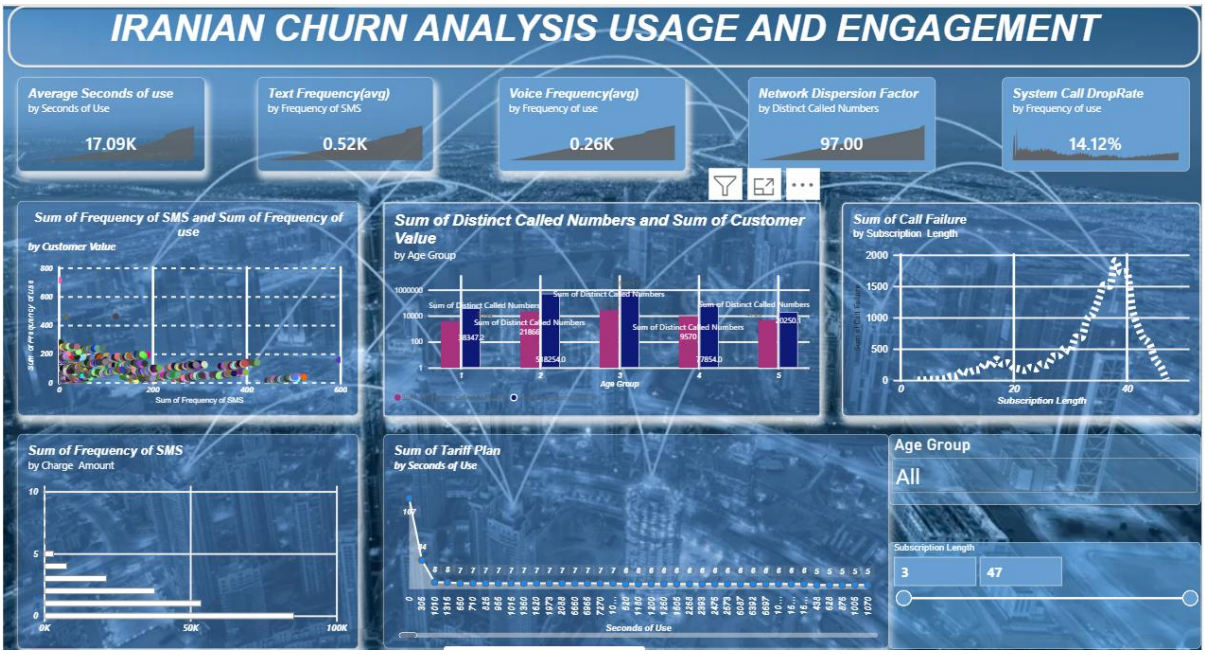

Dashboard and Visualization

1.Executive Kpi Dashboard

2.Usage and Engagement

3.Churn and Risk Analysis
